

Change Your **CODE**

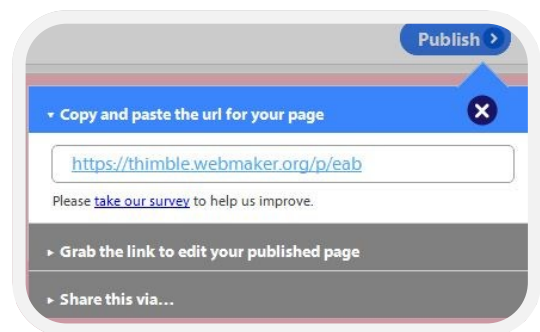

Follow these easy steps to make changes and republish the page you created using Thimble.

First type in your web page's thimble url and add `"/edit "` to the end to go to Thimble's editing page

Next change your web page using the Thimble editor.

Finally click the **Publish** button, select Yes and write down the new URL for your changed code. Use this URL to share or edit your page again.

black girls **CODE**
imagine. build. create.
